

FOR IMMEDIATE RELEASE

Cybernetics Announces 16 TB Solid State Disk Hard Drives

The speed of flash available in a never-before-seen 16 TB capacity.

October 25, 2018 – Yorktown, Virginia: Cybernetics has announced the immediate release of 16 TB 3.5” solid state drives (SSD) available for all 3U and 4U SAN storage and Virtual Tape Library (VTL) solutions. That is **4X** the capacity of 3.5” SSD drives made by any other manufacturer! The 16 TB 3.5” SSD is engineered and manufactured in the U.S.A., exclusively by Cybernetics.

Based in Yorktown, Virginia, since 1978, Cybernetics manufactures, supports, and services a complete family of disk-based storage and backup solutions. Cybernetics is recognized in the United States and around the world as a pioneer in data storage technology, specializing in industry-first features that vastly improve the performance of tape and disk subsystems.

FOR IMMEDIATE RELEASE

Cybernetics Announces 16 TB Solid State Disk Hard Drives

Cybernetics' Virtual Disk SAN and Virtual Tape Backup Solutions Now Available With 16TB SSD Drives.

October 24th, 2018, Yorktown, Virginia – Cybernetics, a pioneer in the data backup and storage industry, has announced the immediate availability of 16 TB 3.5” Solid State Drives in all 3U and 4U SAN Storage Virtual Disk and Virtual Tape Library solutions. Long known as an industry innovator with a history of engineering leading-edge developments, Cybernetics is the first manufacturer of storage and backup solutions to offer Solid State Drive's with 16 terabytes of density in their 3U and 4U chassis. Cybernetics' SAN storage solutions and VTL's are now available with 16 TB SSD drives, providing the speed of flash with a greater range of capacity, options and flexibility. The iSAN® Series, now offers up to 1.2 petabytes of SSD storage in just 5U of rack space, and with up to 8 GB/s speeds, it's the ideal choice for the most demanding enterprise storage requirements. Harnessing the capacity of 16 TB SSD drives, Cybernetics' iSAN V Series Intelligent disk-based backup solutions offer highly customizable All Flash Array and hybrid solutions with backup speeds of up to 14.4 TB /hour and the industries highest deduplication ratios.

Based in Yorktown, Virginia, Cybernetics manufactures, sells, supports and services a complete line of backup and storage solutions. Established in 1978, Cybernetics is recognized in the US and across the world as a pioneer in data storage technology and is well renowned for highly innovative storage features while ensuring top reliability and interoperability of systems.
