### **Cybernetics' Virtual Tape Libraries Extend ROI.**

May 16, 2017, Yorktown, Virginia – Cybernetics announces upgradeable performance VTLs.

Cybernetics' new V 3k/5k/7k Series allows customers to increase performance and capacity as needed with scale-up, scale-out, architecture that extends ROI for several more years than competing brands. If more backup/restore/deduplication performance is required in the future, the V3000 and V5000 controller can be upgraded to higher performing models without impacting any of the backups being stored.

Based in Yorktown, Virginia, since 1978, Cybernetics manufactures, supports, and services a complete family of disk-based storage and backup solutions. Cybernetics is recognized in the United States and around the world as a pioneer in data storage technology, specializing in industry-first features that vastly improve the performance of tape and disk subsystems.
