

FOR IMMEDIATE RELEASE

Cybernetics and RetroFit Technologies Join Forces

May 2, 2008, Yorktown, Virginia – Cybernetics and RetroFit Technologies have announced a new partnership agreement authorizing RetroFit to provide solutions and site services for Cybernetics miSAN® and iSAN® lines of iSCSI SAN virtual tape and storage solutions.

Cybernetics is an innovator and manufacturer of virtual storage and backup solutions. Powerful features, developed to capitalize on the tremendous value of iSCSI storage networking, position the miSAN® and iSAN® as an excellent value for the small to medium businesses, as well as the larger enterprise sites.

RetroFit is one of New England's largest and oldest systems maintenance organizations, with a wealth of expertise and a highly trained technical staff. RetroFit designs the right solution based on the best value, and then supports it with expert, dedicated customer service. RetroFit has been authorized as a preferred state vendor on major contracts since 1994. As one of the state's most successful technology providers, RetroFit manages, deploys and supports projects of all sizes and complexities for departments, agencies, cities and towns throughout Massachusetts.

Based in Yorktown, Virginia, since 1978, Cybernetics manufactures, supports, and services a complete family of disk-based storage and backup solutions. Cybernetics is recognized in the United States and around the world as a pioneer in data storage technology, specializing in industry-first features that vastly improve the performance of tape and disk subsystems.
