## **Cybernetics iSAN® Storage Products are Veeam Certified**

---

### **Veeam Certified**

March 11, 2014, Yorktown, Virginia – Cybernetics, a leading innovator in the data storage industry, today announced that the Cybernetics family of iSAN® storage devices is now Veeam Certified. Veeam Backup & Replication provides fast, flexible and reliable recovery of virtualized applications and data for both VMware vSphere and Microsoft Hyper-V environments. The integration of the Veeam data protection software with the intuitive design of Cybernetics backup and storage solution equipment is another giant step toward bringing more flexibility and reliability to the world of Virtual Storage.

Cybernetics solutions offer unparalleled performance for business customers, and Veeam's Backup and Replication software protects well over 1 million virtual machines worldwide. Combining Cybernetics storage arrays with Veeam backup and replication software creates a more flexible data protection solution for virtualized environments. Combining Veeam with the high-performance design of Cybernetics storage, customers can protect their virtualization investments and take advantage of improved backup and restore processes. This, along with the innovations of Cybernetics engineers, will accelerate meeting the demands of protecting and storing data that an organization will encounter. Together, Veeam and Cybernetics have forged a partnership supporting a wide variety of Microsoft Hyper-V and VMware vSphere virtual environments.

Cybernetics' family of iSAN® storage devices are flexible data solutions for businesses with growing disk storage and data protection needs.

In addition to flexible configuration options to tailor the system to meet specific needs, Cybernetics systems are dynamically expandable and upgradeable to meet the challenges of future demands. Cybernetics' high performance architecture has been proven to achieve higher speeds than any comparably-equipped product.

Based in Yorktown, Virginia, since 1978, Cybernetics manufactures, supports, and services a complete family of disk-based storage and backup solutions. Cybernetics is recognized in the United States and around the world as a pioneer in data storage technology, specializing in industry-first features that vastly improve the performance of tape and disk subsystems.
